

## Seminar Talks of the Crop Science Group

|                           |                                 |   |                             |
|---------------------------|---------------------------------|---|-----------------------------|
| <b>09.10.2019 - 15:00</b> | <i>Sabine Seidel</i>            | Modeling soil fertility in soil-crop systems at different scales                                    | Katzenburgweg 5, room 2.012 |
| <b>17.10.2019 - 14:00</b> | <i>Thuy Huu Nguyen</i>          | Leaf water dynamics and water use efficiency of winter wheat and maize under soil water variability | Katzenburgweg 5, room 2.012 |
| <b>24.10.2019 - 14:00</b> | <i>Muhammad Habib ur Rahman</i> | Past and current research   | Katzenburgweg 5, room 2.012 |
| <b>31.10.2019 - 14:00</b> | <i>Gunther Krauss</i>           | Order!  | Katzenburgweg 5, room 2.012 |
| <b>21.11.2019 - 14:00</b> | <i>Shahedul Alam</i>            | Genome-wide association study of ozone tolerance in winter wheat                                    | Katzenburgweg 5, room 2.012 |
| <b>09.01.2020 - 14:00</b> | <i>Andreas Enders</i>           | Simplace farm model using group components  | Katzenburgweg 5, room 2.012 |
| <b>23.01.2020 - 14:00</b> | <i>Thuy Huu Nguyen</i>          | Conference talk - Dry run   | Katzenburgweg 5, room 2.012 |
| <b>30.01.2020 - 14:00</b> | <i>Thomas Gaiser</i>            | The importance of mass balances in dynamic simulation models  | Katzenburgweg 5, room 2.012 |
