

Seminar Talks of the Crop Science Group

27.03.2019 - 14:00	<i>Ilja Illert</i>	Assessment of soils with naturally occurring iron for future iron toxicity experiments with rice	Katzenburgweg 5, room 2.012
17.04.2019 - 14:00	<i>Gunther Krauss</i>	The Importance of Being Balanced - Balance Checks Within and Across Crop Models	Katzenburgweg 5, room 2.012
15.05.2019 - 14:00	<i>Andreas Tewes</i>	Assimilation of RS-derived Winter Wheat LAI Estimations Into A Crop Model	Katzenburgweg 5, room 2.012
22.05.2019 - 14:00	<i>Thuy Huu Nguyen</i>	Inclusion of plant hydraulic conductance on crop model: model analysis for maize in simulating gas fluxes and crop growth	Katzenburgweg 5, room 2.012
29.05.2019 - 14:00	<i>Sabine Seidel</i>	Modeling root elongation as a function of soil strength and biomass growth with a field-scale crop model coupled with a 3D architectural root model	Katzenburgweg 5, room 2.012
19.06.2019 - 14:00	<i>Andreas Enders</i>	AMEI - Agricultural Model Exchange Initiative	Katzenburgweg 5, room 2.012
